

Social Security pension offset and windfall elimination provisions for School Nurses

CSNO and our members have been very interested in following federal legislation dealing with the Social Security pension offset and windfall elimination provisions. Currently, we know of 2 bills at the federal level dealing with the issue:

S 349 introduced by Feinstein

S 363 introduced by Mukulski

Click here <http://thomas.loc.gov/> for the federal legislation site, to look up the bills. We encourage you to speak out, with letters and calls to members of the California delegation, and urge them to pass this important legislation.

Check back to this site and we will add bills and information as we receive it.
